

Trap Neuter Release Instructions

- **Begin feeding cats at a regular time one week prior to trapping date**
- **One day of trapping do not feed, they will not starve and will be hungry for what is placed in the trap**
- **Once cat is in trap you must cover with a towel or blanket to calm them**
- **Move trap to a cool location and notify one of the trapping coordinators**
- **All trapped cats will need to be brought to the clinic location by 9am on Sunday September 16th, 2018.**
- **If unable to house cat over night prior to or night after surgery a location will be provided by the borough (visit borough website for this location)**
- **Day of surgery colony caretakers will be contacted when they can come pick up their cats OR to notify when the cats will be released back to the property**
- **It is important to provide an accurate phone number on the application for direct contact**
- **ALL questions or concerns can be directed to the Pet Friend Cat Coordinator, Christie Yasofsky, at christie16296@gmail.com or 724-863-7722 Option 6**
